

Traditional and Other Services for those who are being released from CDCR custody

Updated May 4, 2009

Some of the Indian Health Clinics (IHCs) listed offer sweat lodge, warrior down, talking circle, fire starter, AA/NA programs and other services that your participants can be referred to like health, dental, mental health, social services, alcohol and drug treatment, referrals to job training, etc. In some cases you will have to be specific about asking for the traditional services to get the right contact person(s) since these are not always offered up front or to all people.

You can also ask these IHCs for referrals to Tribal TANF programs that can provide additional services for participants that have children in their households and qualify for the Tribal TANF programs.

There are also a few non-Indian programs at the end of the listing that participate with CRIHB's AAIR program. They do offer traditional services by way of a local traditional person.

The listing below is by CDCR Region. If you have additions or corrections please let me know and thank you very much for your help and service to the people.
